Professional Gigabit SIP Phone with Colour LCD

The SIP-T29G dual port Gigabit Executive IP phone offers a high resolution TFT colour display and Optima HD technology delivering a rich visual and audio experience along with a very user friendly interface. As well as support for corded and wireless headsets, the SIP-T29G also incorporates a USB port allowing Bluetooth headsets to be connected via the Yealink BT40 Bluetooth dongle and up to 6 expansion modules making this an attractive and feature-rich handset.

Key Features and Benefits

Terminal Enhancement
Yealink’s SIP Phones continue to evolve, increasing the number of features available and a more user-friendly colour interface.

HD Audio
Yealink Optima HD Voice is a combination of software and hardware design, as well as the implementation of wideband technology to maximise the acoustic performance. This, coupled with advanced acoustic clarity technology, such as full duplex, echo cancellation, adaptive jitter buffer etc. creates a crystal clear audio experience.

A Rich Visual Experience For Applications
The SIP-T29G incorporates productivity-enhancing features such as SCA, BLF List, call forward, call transfer, and 3-way conferencing. The 4.3 inch backlit colour display enables rich visual presentation and easier navigation of the menu. Three pages of 8 soft keys are displayed and can be programmed to support various features.

Advanced Connectivity and Expandability
For network connectivity, the SIP-T29G has two Gigabit Ethernet ports, and supports Power over Ethernet. The SIP-T29G supports a variety of connectivity devices, including the YHS32 headset, the EHS36 headset adaptor and BT40 Bluetooth dongle. It also supports up to 6 Expansion Modules (EXP39), adding up to 240 additional buttons with a screen based LCD display and LED system.

Highly Secure Transport and Interoperability
The SIP-T29G uses SIP over Transport Layer Security (TLS/SSL) enabling service providers to make use of the latest technology for enhanced network security. The phone is certified compatible with 3CX, Asterisk and Broadsoft Broadworks, ensuring excellent compatibility with leading soft switch providers.
